Nutripride Ad Campaign Plan

Client: Nutripride

Campaign Duration: 6 Months

Platform: Meta (Facebook/Instagram), Google (Search/YouTube), TikTok, and Jumia..

---

1. Campaign Objective

To promote **Nutripride**, drive **awareness**, **engagement**, **sales**, and encourage **distributor sign-ups** through a comprehensive ad campaign targeting different audience segments in Nigeria. The campaign will focus on:

- **Awareness:** Introduce Nutripride and educate the market.
- **Engagement:** Build interaction and interest through informative content.
- **Sales:** Drive conversions through Shopify, Meta, Google, TikTok, and e-commerce platforms like Jumia.
- **Lead Generation:** Capture details of potential distributors and consumers.

---

2. Target Audience

- **Children's Wellness:** Parents, guardians, medical staff, educators, and more.
- **General Wellness (Men/Women):** Young adults and middle-aged individuals focused on fitness.
- **Pregnancy-related Products:** Men, women, doctors, newlyweds, and more.
- **Distributors:** Gym owners, pharmacies, medical practitioners, wellness centers and more.

Regional opportunity table (Location targeting options and why)

The table below ranks regions for **formal** consumer supplement entry (registered products, compliant advertising, modern channels). It deliberately separates “formal opportunity” from “latent need,” because high nutritional need does not automatically translate into commercial purchasing power. [33]

Zone / City Cluster	Demand Drivers (What to Sell)	Channel / Entry Logic (How to Sell)	Opportunity Rating
South West (Lagos–Ibadan axis)	Women's wellness; beauty-from-within; kids' chewables/gummies; premium sports nutrition	Highest density of pharmacy chains, corporate activations, influencer content production, and e-commerce delivery lanes	Highest
North Central (FCT/Abuja + state capitals)	Prenatal/prenatal gummies; immunity; stress/energy formulas; executive wellness packs	Strong formal retail + institutional buying + high digital ad reach	High
South South (Port Harcourt + oil/gas corridors)	Energy, immunity, cardio, and metabolic support; workplace wellness	Corporate workforce programs suit "corporate wellness day" models	High
South East (Enugu–Onitsha corridor)	Women's wellness; family nutrition; iron/blood-health products; herbal supplements	Strong trading networks, but distribution reforms and enforcement in open markets can disrupt supply	Medium–High
North West (Kano and large urban centers)	Family nutrition value packs; halal/pediatric gummies; affordable multivitamins	Huge population centers; distribution impacted by relocation to CWC and enforcement actions	Medium
North East	Essential nutrition support through health partners; lower-priced core vitamins	Security/logistics and lower formal retail penetration reduce pure D2C ROI; partner-led channels matter	Selective / partnership-led

Ad Creatives Guidelines

Meta (Facebook/Instagram)

1. **Do’s:**
    - Use benefit-focused language (e.g., “supports energy release,” “supports immune function”).
    - Focus on wellness, fitness, and general health.
    - Avoid certainty or claims of guaranteed results (e.g., “cures,” “guarantees”).
2. **Avoid:**
    - Personal health implications (e.g., “Are you anemic?”).
    - Before/after body transformations.
    - Any form of manipulative or shame-based creative.
    - Negative self-perception language (e.g., "Perfect body").

Google (Search/YouTube)

1. **Do’s:**
    - Maintain a clear, consistent message about product benefits without implying treatment of specific diseases.
    - Keep supplement keywords separated from prescription-drug terms.
2. **Avoid:**
    - Unsubstantiated medical claims.
    - Any language implying diagnosis or treatment that could trigger policy violations.

---

3. Platform Strategy & Ad Types

Meta (Facebook/Instagram)

1. **Awareness Ads**

    - **Objective:** Build brand recognition and product awareness.
    - **Budget Allocation:** 40% of the Meta budget
    - **Targeting:** Parents, educators, wellness-focused individuals, pregnant women, and distributors.
    - **Ad Creatives:** Educational content, wellness tips, infographics, and general product benefits.
    - **Metrics to Track:** Reach, impressions, engagement rate.
    - **Expected Reach:** 500,000 – 1 Million after 3 months
2. **Engagement Ads**
    - **Objective:** Generate interaction through polls, quizzes, and educational content.
    - **Targeting:** Health and wellness enthusiasts, people interested in fitness, parents, and medical staff.
    - **Ad Creatives:** Interactive videos, polls, Q&A-style posts, promotions related to wellness and product benefits.
    - **Metrics to Track:** Engagement rate, click-through rate (CTR), comments, and shares.
    - **Expected Impressions:** 1.5 Million – 2 Million over the campaign period.
3. **Sales Ads**
    - **Objective:** Drive conversions and sales through the Shopify website and e-commerce platforms.
    - **Targeting:** Retarget users who previously interacted with awareness or engagement ads.
    - **Ad Creatives:** Product images, testimonials, discounts, and calls to action.
    - **Metrics to Track:** Conversions, click-through rate, purchase rate.
    - **Expected Conversions:** 1-2% conversion rate, leading to 50 - 100 sales after 3 months.
4. **Lead Generation Ads**
    - **Objective:** Capture distributor sign-ups and consumer interest.
    - **Targeting:** Business owners, medical practitioners, and people interested in wellness products.
    - **Ad Creatives:** Forms to capture contact details, offers for free consultations, and sign-up incentives.
    - **Metrics to Track:** Lead volume, cost per lead, form submission rate.
    - **Expected Leads:** 50-100 potential distributor leads after 3 months

---

Google Ads (Search/demand gen)

1. **Search Ads**
    - **Objective:** Capture high-intent traffic through search queries related to wellness, supplements, and multivitamins.

    - **Targeting:** Keywords targeting users actively searching for supplements, wellness, fitness, and pregnancy-related products.
    - **Ad Creatives:** Text-based search ads with product benefits, promotions, and clear calls to action.
    - **Metrics to Track:** Impressions, clicks, click-through rate (CTR), and conversions.
    - **Expected Conversions:** 1-2% conversion rate, resulting in 50-100 conversion actions after 3 months.
2. **Demand Generation Ads**
    - **Objective:** Drive brand discovery and reach new customers.
    - **Targeting:** Contextual ads for users in the health and wellness space, using relevant interests and demographic targeting.
    - **Ad Creatives:** Display banners, rich media ads, and video content highlighting Nutripride's benefits.
    - **Metrics to Track:** Impressions, clicks, website visits.
    - **Expected Reach:** 250,000 – 500,000 individuals after 3 months

3. **YouTube in-stream skippable ads:**

- **Objective:** Increase brand awareness and introduce Nutripride to new potential customers.
- **Targeting:** Health, wellness, fitness, and nutrition audiences using interest and demographic targeting.
- **Ad Creatives:** 15–30 second skippable video ads highlighting Nutripride's benefits with a clear call-to-action.
- **Metrics to Track:** Views, view rate, click-through rate, and website visits.
- **Expected Reach:** 250,000 – 500,000 viewers within 3 months.

TikTok Ads Strategy

Reach Ads

- **Objective:** Build brand awareness and introduce Nutripride to a broad audience.
- **Targeting:** Parents, wellness enthusiasts, pregnant women, and health-conscious individuals.
- **Ad Creatives:** Short-form videos highlighting product benefits, wellness tips, and educational content.
- **Metrics to Track:** Reach, impressions, and video views.
- **Expected Reach:** 500,000 – 1,000,000 people within 3 months.

Traffic Ads

- **Objective:** Drive users to the website or product pages to learn more about Nutripride.
- **Targeting:** Health, fitness, and wellness audiences interested in supplements and healthy living.
- **Ad Creatives:** Short videos explaining product benefits with clear "Learn More" or "Visit Website" calls to action.
- **Metrics to Track:** Click-through rate, link clicks, and website visits.
- **Expected Impressions:** 1.5M – 2M over the campaign period.

Conversion Ads

- **Objective:** Generate product purchases through the website or e-commerce store.
- **Targeting:** Retarget users who viewed videos, visited the website, or interacted with previous ads.
- **Ad Creatives:** Product demonstrations, testimonials, promotional offers, and strong purchase calls to action.
- **Metrics to Track:** Conversions, click-through rate, and purchase rate.
- **Expected Conversions:** 1–2% conversion rate, leading to 50–100 sales within 3 months.

Direct Message Ads

- **Objective:** Encourage potential customers and distributors to start conversations and request more information.
- **Targeting:** Business owners, wellness professionals, and users interested in health products.
- **Ad Creatives:** Short videos inviting users to message for product details, distributor opportunities, or consultations.
- **Metrics to Track:** Message volume, response rate, and cost per conversation.
- **Expected Leads:** 50–100 inquiries or potential distributor leads within 3 months.

---

8. Monthly Ad cost breakdown...

Platform	Month 1	Month 2	Month 3	Month 4	Month 5	Month 6	Total Spend
Meta (Facebook/Instagram)	N800000	N1000000	N1200000	N1400000	N1500000	N1800000	N7700000
TikTok	N700000	N900000	N1000000	N1100000	N1200000	N1400000	N7300000
Google	N1,200,000 (~$857.14)	N1,500,000 (~$1,071.43)	N2,000,000 (~$1,428.57)	N2,400,000 (~$1,714.29)	N2,500,000 (~$1,785.71)	N2,560,000 (~$1,828.57)	N13160000
Jumia	N900,000	N900,000	N900,000	N900,000	N900,000	N900,000	N5400000
Konga	N37,500	N37,500	N37,500	N37,500	N37,500	N37,500	N225,000

Explanation:

We are using a 20%, 20%, 25%, 35% spread for awareness, engagement, consideration, and sales for each campaign run across all platforms. On some of the platforms, we are using a gradual sequence budgeting, while on others we are using an equal spread because some platforms involve using a gradual process to learn and improve, while on the others it is more about being steady and consistent. While in one that is the highest you can spend on subscription (Konga).

My Role:

- Guide the creation of ad creatives.

- Set up, manage, and optimize ad campaigns in real time.
- Assist platform management and provide detailed reporting on both Meta, TikTok, Jumia, and Google platforms.
- Ensure ad creative scripts direction aligns with platform policies.
- Optimize ads in real-time by adjusting targeting and budget allocations to maximize performance.

Conclusion

This ad campaign for **Nutripride** will help establish its presence in Nigeria, reaching both end consumers and potential distributors. By using **Meta and Google platforms** strategically, we can achieve the campaign's objectives of **awareness**, **engagement**, **direct sales**, and **distributor sign-ups**. With consistent tracking and optimization, we aim to generate a strong **ROI** for the brand and expand its reach in the rapidly growing wellness market.

The **Nigerian wellness and supplement market** is valued at **$0.7 billion to $1.1 billion** and is expected to grow as awareness around health and nutrition increases. As the market becomes more formalized with certified products, compliant advertising, and modern sales channels, Nutripride has a unique opportunity to carve out a significant market share. The **high demand for supplements,** combined with **increasing digital ad adoption** in Nigeria, creates a fertile ground for growth.

Note: The estimated reach, impressions, and conversions are subject to the actual performance of the campaigns, which will be adjusted in real-time for optimal results.
